

PACIFIC GRO

Sea Phos™ 1.7-7-0

Seafood for the Soil®

General Usage and Application Rates

Mix well before adding water

Dilution Rate: 10:1 to 30:1 for general use

Minimum Dilution: Soil Use 5:1 (20% solution)

For Foliar Use, at least 50:1 (2% solution)

Row Crops 1—2 gal/acre in row as starter
(up to 4 gal/acre side-dressed)

Orchards and other perennial crops 3—10
gal/acre before bud break and again post-harvest

Vegetables and other annuals 3—5 gal/acre
at planting and/or before flowering

Foliar Use 1—2 quarts in 25 gal water per acre

Use with Caution: Wash off with water any contact with body. Do not store diluted product, use up all that you mix. Store in shed, protect from hot sun. Protect from freezing.

- **High Phos. Formula** to promote early season root growth and flowering
- **Screened to 150 mesh (105 micron)** for trouble-free spray and drip use

GUARANTEED ANALYSIS

Total Nitrogen (N) 1.7%
1.4% water soluble Nitrogen
0.3% water insoluble Nitrogen
Available Phosphate (P₂O₅) 7.0%

Derived from fish protein hydro-lysate, fish bone meal, and phosphoric acid.

DENSITY: 9.0 lbs/gal at 68 F
