

# INTRODUCING

## Liquid Organic High Phos. Fertilizer

### Provides Phosphorous & Calcium

7% phosphate in a 150-mesh liquid, enzymatically digested from fish bone and salmon, stabilized with phos. acid

### Boosts Root Development and builds Humus & Healthy Soil

Provides a broad range of nutrients from the ocean, that build humus and soil organic matter—including fish oil — the best food for beneficial fungi

Long known for our Oceanic Hydrolysate with crab and shrimp shell, we have developed a product with liquefied fish bone that provides highly plant available phosphorous and calcium, amino acid nitrogen, and other marine nutrients.

#### General Usage and Application Rates

Mix well before adding water

**Dilution Rates: 10:1 to 30:1 for general use**

**Minimum Dilution: Soil Use 5:1 (20% solution)**

**For Foliar Use, at least 50:1 (2% solution)**

**Row Crops** 1–2 gal/acre in row as starter  
(up to 4 gal/acre side-dressed)

**Orchards and other perennial crops** 3–10  
gal/acre before bud break and again post-harvest

**Vegetables and other annuals** 3–5 gal/acre  
**at planting and/or before flowering**

**Foliar Use** 1–2 quarts in 25 gal water per acre

**Use with Caution:** Wash off with water any contact  
with body. Do not store diluted product, use up all  
that you mix. Store in shed, protect from hot sun.  
Protect from freezing.

● High Phos. Formula to promote early  
season root growth and flowering

● Screened to 150 mesh (105 micron)  
for trouble-free spray and drip use

#### GUARANTEED ANALYSIS

Total Nitrogen (N) ..... 1.7%

1.4% water soluble Nitrogen

0.3% water insoluble Nitrogen

Available Phosphate (P<sub>2</sub>O<sub>5</sub>) ..... 7.0%

Derived from fish protein hydrolysate, fish bone  
meal, and phosphoric acid.

DENSITY: 9.0 lbs/gal at 68 F

Information regarding the contents and levels of  
metals in this product is available on the internet at
